

Priority Collection Leaderboard

Customer	Sum of Outstanding amount	Weighted Average Age
Summit Manufacturing	534,528.56	37.08
Horizon Media	510,818.95	47.17
Global Tech Corp	441,058.33	51.81
Apex Logistics	381,817.70	27.29
Delta Retail	313,153.58	39.10
Total	2,181,377.12	41.00

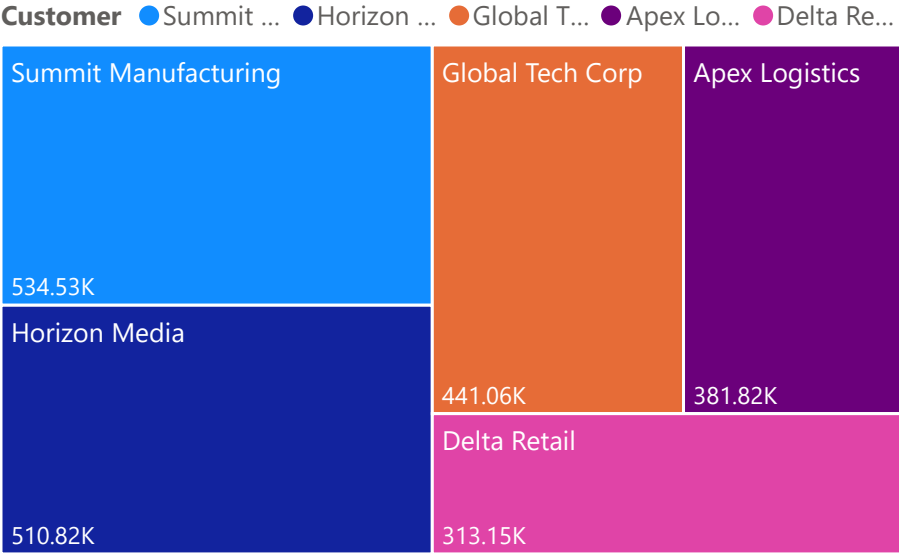

AR Aging Profile.

Collection Status Ratio

Customer Concentration Risk.

Executive Summary: AR & Liquidity Analysis

- The Bottleneck: \$2.18M is currently tied up in receivables, driving our DSO to a critical 116.8 days (vs. 45-day benchmark) and pulling our Collection Efficiency Index (CEI) down to 68%.
- The Risk: 68% of this debt is concentrated in just five clients. While *Summit* owes the most, *Global Tech Corp* (\$441K) and *Horizon Media* (\$510K) pose the immediate liquidity threat due to highly aged debt (WAA near 50 days).

The Action Plan:

1. Freeze credit extensions for *Global Tech*.
2. Deploy targeted collections on the Top 3 leaderboard accounts to unlock immediate cash.
3. Implement automated 15-day reminders to catch fresh debt before it ages.
